Parnell's Funeral.

LONDON, Oct. 9.—It has been arranged that the Parnellite members of Parliament and others prominently identified with the political fortunes of the dead leader, who are now in Ireland, will proceed to Holyhead in a body. There they will meet their colleagues and friends resident in England, who will have traveled to Holyhead on the same train which bears the remains of the Irish Chieftain. In this city the city hall is being prepared for the lying in state of the remains, and everything possible is being done to ensure the safety of the immense throng which is expected to be present on that occasion. Ample police arrangements have been made, and there is no doubt that the authorities are prepared to maintain public order. The Healy faction of the Irish National party have decided, owing to the threats made against them, not to attend the funeral of Mr. Parnell.

DUBLIN FEARS VIOLENCE.

DUBLIN, Oct. 10.—Yesterday as John Dillon was walking along Sackville street he was stopped by a crowd of roughs, who saluted him with cries of "you are a murderer." "There is Dillon the murderer!" and other insulting and threatening exclamations. Excitement in the city grows intense as the hour for the arrival of the remains of Parnell draws nigh. The situation is already extremely critical, and notwithstanding the protestations of the police that they are prepared and able to preserve the peace, the orderly element of the people is apprehensive that trouble will occur before the funeral passes through the streets. The Freeman's Journal to-day announces that Dillon and Sexton have been forced to absent themselves because of repeated threats that their presence at the funeral would result in violence to them and be cause of the tumult. The Journal says that if violence does occur to-morrow the Irish people will hold United Ireland (the organ of the Parnellites) responsible for having incited it.

Chinese Disturbers Arrested.

LONDON, Oct. 9.—A dispatch from Shanghai, China, says the official promoters of the recent disturbances at Ichang are being conveyed to Shun King, in the Province of Se Chuen, under escort of a strong guard of Chinese troops.

Cable Notes.

The funeral of the late Rt. Hon. Wm. Henry Smith took place this afternoon at Hembleden, near Henley, on the Thames. It was private. The Queen, Prince of Wales, all the cabinet ministers and leading members of the opposition have sent letters of condolence to the family.

The strike of dock laborers and other employees about the Caron and Hermitage wharves, Wapping, is showing signs of collapsing. The employers are obtaining a sufficient number of "free" men to carry on the work.

Mr. and Mrs. H. M. Stanley, and Mrs. Tennant, mother of Mrs. Stanley, started yesterday for Australia. Mr. Stanley is still lame, as the result of his recent accident in Sutherlandshire, and is compelled to use a stick and crutch in walking.

A dispatch from Brighton says that the condition of Mrs. C. S. Parnell is one of utter collapse. Her physicians are said to be becoming seriously alarmed as to the final results of the shock which she has experienced.

Threshing in Dakota.

ST. PAUL, Minn., Oct. 9.—Reports from the wheat fields of North Dakota and Northwestern Minnesota to-day are more encouraging. The weather is fine and threshing is in progress in a number of places. Less than half the crops is threshed and fears are entertained that much will be lost.

Purest Jams—Okell & Morris.

TROUBLE ANTICIPATED

OVER PARNELL'S FUNERAL TO-MORROW.

The Dead Man's Followers in a Bitter Mood—Dillon Hooted by a Mob—Troops and Police Prepared—Italy and the Dardanelles.

LONDON, Oct. 10.—The apprehensions of trouble at the funeral of Parnell to-morrow are so sure that the troops in Dublin have been strengthened by order of the Lord Lieutenant. The soldiers will remain under arms without interfering with the celebration, unless summoned to do so by the lawful authorities, and then only in an extremity. The feeling for Parnell and against his opponents runs very high, not only in Dublin but throughout Ireland, and the chief apprehension seems to be that the delegation from other places may see fit to attack and wreck the offices of newspapers that have been harsh in their treatment of Parnell when he was alive, and scarcely less so since his death.

THE PARNELLITE VIEW.

A Dublin paper says that the Irish hierarchy is non-plussed by the situation, and that the bishops, or the majority of them, would prefer to let recent matters be forgotten and Irish affairs go on as they were going on before the struggle was begun that ended in the death of Parnell. The hierarchy and Timothy Healy made the warfare against him so personal that they are really at a loss what to say now that he is gone. "The people were appealed to from the pulpit not to follow Parnell because he had been implicated in the divorce scandal," said a Parnellite M. P. this morning. "Now that the divorce scandal is out of the way, new arguments will have to be framed if what they call Parnellism and what we call Nationalism is to be crushed. At present the clergy are the supreme rulers on the McCarthy side, but their supremacy is based on their moral arguments. But for that argument and the confidence of a large portion of the people in its presentation by the clergy, Parnell would have held a majority of the people everywhere, and I do not believe that his name will be any the less potent for the cause now that he is dead, than when he was alive. The so-called Parnellites therefore represent a majority of the Irish people, and should wait for instead of hastening to offer terms of re-union."

CRUELTY TO THE JEWS.

A St Petersburg dispatch says several Jewish artisans who were found to have returned to Moscow after having been transported from that city to the "pale" of Jewish settlement were arrested and flogged with great severity, and then sent to Siberia to work on the railway now being constructed. There is no relaxation anywhere, and especially in Moscow, in the treatment of the Jewish population, and as for foreign appeals in their behalf, not the slightest attention is given by the athorities.

THE DISGRACED GRAND VIZIER.

The Sultan, says a Constantinople dispatch, has granted a pension to the former Grand Vizier, Kiamil, and a palace in Asia Minor where the dismissed official must live the greater portion of the year. While the Sultan thus bestows favors on his former head servant, it is said that he has no intention of restoring him to high official responsibility, as he believes that Kiamil failed to handle the Egyptian question with that tact and energy that it called for, while at the same time he was on too familiar personal terms with the British and German ambassadors.

THE ITALIANS TAKE A HAND.

A Rome dispatch says that a squadron of the Italian fleet has started for the Levant under sealed orders. It is thought that possibly a repetition of the Sigri affair is contemplated as a warning on the part of Italy that she is ready to take part in any struggle over the Dardanelles. The Italians are not content with the splendid navy they already possess, and are adding to their financial troubles by the costly additions they are making to the navy, with a view of coming as near as they can to the French in naval power.

Thrown off a Car.

LONDON, Oct. 9.—Another outrage has just occurred, on a railway train, proving the danger of the compartment system. As the train on the Great Western Railway was pulling out of the station at Oldbury, an unknown man, about 25 years of age, dashed across the platform and jumped into a second-class carriag. The only other occupant was Miss Amy Smith, aged 22, daughter of a well known merchant of Birmingham. The man who had so unceremoniously entered the department, bent glaring eyes on the young woman, who found herself in the presence of a villain or maniac. In her terror, she screamed for help, but no one heard her, which only heightened the frenzy of the intruder. So far he had not molested Miss Smith except by glaring at her. But when the train had attained full speed he suddenly threw open the door on the side on which she crouched paralyzed with fear, seized her around the waist and hurled her out of the carriage while the train was passing swiftly on. Miss Smith struck the ground with great violence, but was not killed by the fall, although badly bruised. She managed to reach the nearest station and told her story. Dispatches were sent on to stop the train and arrest her assailant, but he had escaped before the alarm reached the officials. A search has been made in every direction but no trace of the fugitive has been found. Miss Smith is in a serious condition from the injuries she received and the terrible shock she experienced.

Sent to Prison.

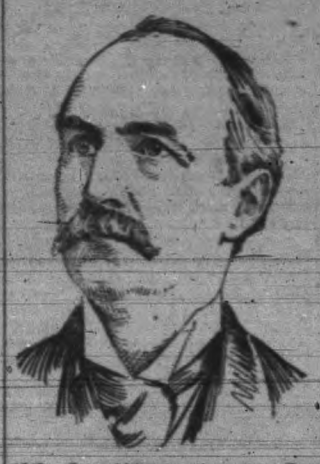
LONDON, Oct. 9.—Ted Pritchard, the English pugilist, has been sentenced to prison for one month for having recently made a cowardly assault upon a barkeeper who requested the fighter to leave a saloon in which he was creating a disturbance.

THE OHIO CONTEST.

Governor Campbell and Major McKinley, Candidates for the Governorship.

GOVERNOR CAMPBELL, DEMOCRAT.

James E. Campbell was born in Middleton, Butler county, Ohio, July 7th,



1843. One of his ancestors was Capt. John Parker, who commanded the colonial troops at the battle of Lexington, and another was with Montgomery at the assault on Quebec. Both his grandfathers were soldiers in the war of 1812. His father, Andrew Campbell, was a physician of prominence. His uncle, too, Lewis D. Campbell, was a statesman of note. Young Campbell received a fair education and taught school at 18. Before he had reached his majority he joined the navy and served on the Mississippi and its tributaries, taking part in naval engagements at Fort de Russey, Tunica Bend and other places. He was discharged for disability, much against his own wish, and sent home. After he recovered he began the study of law, and at 24 he began its practice in the little town of Hamilton, where he was very successful. In 1877 he was elected Prosecuting Attorney. He was a candidate for the State Senate in 1879 and lacked 12 votes of being elected. He served three terms in Congress, and his career there was marked by close application to the interests of his constituents. He was elected Governor in 1889, and is again a candidate against Major McKinley, the Republican nominee.

MAJOR M'KINLEY, REPUBLICAN.

William McKinley, Jr., was born at Niles, Ohio, February 26, 1844. He en-

listed in the United States army in May, 1861, as a private soldier in the Twenty-third Ohio Volunteer Infantry, and was mustered out as Captain of the same regiment and Brevet Major in September, 1865. He was Prosecuting Attorney of Stark county, Ohio, 1869-71; was elected to the Forty-fifth, Forty-sixth, Forty-seventh and Forth-eighth Congresses, receiving a certificate of election to the latter, but late in the first session his opponent was given the seat in the House. He was elected to the Forty-ninth and re-elected to the Fiftieth Congress as a Republican, receiving 18,776 votes against his Democratic opponent. McKinley is more of an orator than any of the other leaders of the House. He has been likened to Stephen A. Douglas in appearance, but he is more like him in his pose and manner of speaking than in personal appearance. His name is known in every part of the civilized world as the champion of protection and as the author of the McKinley bill. The debate between him and Gov. Campbell as to the merits of protection and free trade is reported to be very interesting.

The Spreckels Enterprise.

PHILADELPHIA, Oct. 10.—C. A. Spreckels, Rudolph Spreckels, J. C. Uhler, Chas. Watson, Wm. O Hempsted and Louis Spreckels will make an application next month for a charter of incorporation, to be known as the Spreckels Steamship Company. The application states that the object of the company is to engage in the shipbuilding and transportation business and "whatever shall be incidental to the business." C. A. Spreckels, who is the Philadelphia representative of the great sugar refining firm, said yesterday that it was not the intention of the company to engage in the business of building steamers at present, and that ships would be built simply for the use of the company. At the present time the firm is running two steamers to Hamburg. The present steamship company has been organized for the sole purpose of facilitating the transportation business of the refinery. At the office of the refinery it was stated that additional vessels would be chartered as soon as possible, and that the firm would make additions to the line according to the requirements of the business.

CHAPLEAU'S ATTITUDE.

HE WANTS SIR JOHN'S PROMISE FULFILLED.

Premier Abbott in a Quandary—The Award of the Onderdonk Arbitrators Now Waiting to be Taken Up—Against the Government.

Special to the TIMES.]

OTTAWA, Oct. 10.—The TIMES correspondent interviewed Mr. Chapleau yesterday. He said that so far no trouble had taken place between himself and the Premier, as reported, over the portfolio of Railways and Canals. He stated that he was promised this portfolio by Sir John, and that afterwards Mr. Abbott said he would carry out this promise when reconstruction came at the close of the session. Before leaving, the Ontario Tories said that a French-Canadian was not to get the Railway Department. On the other hand, Mr. Chapleau will resign if he don't get it. Mr. Abbott is in straits betwixt the two, and a crisis is imminent. If Chapleau resigns he will wreck the Government, and to give him the Railway portfolio would be as bad, on account of the recent disclosures.

The Montreal Presbytery at a special meeting denounced Chapleau for his attack on the Protestant clergy.

The final figures for the fiscal year 1890-91 show a revenue of $38,500,000 and an expenditure of $36,462,000, leaving a surplus of $2,038,000. For the first quarter of the current year the revenue shows a falling off of $1,000,000, largely due to the decrease in the sugar duties.

The arbitrators in the big railway case between the Canadian Pacific and the Government over the Onderdonk section of the road in British Columbia have made their award. It lies unopened in the hands of Secretary Jones, of the arbitration board. Secretary Drinkwater, of the C.P.R., is here in connection with the matter, but will not lift the award until he confers with the heads of the company, as there are large fees to be paid before it is given up. The award is against the Government, but the amount is said not to be very large.

Boom in Commercial Cable Stock.

MONTREAL, Oct. 9.—Commercial Cable stock was the feature on the Montreal stock exchange to-day, shares of it having changed hands at advancing prices. The Star, referring to the market, says: "There is very little stock here to speculate with. Commercial Cable was the chief feature of this morning's trading, being firm, with a large number of sales at one-quarter higher than yesterday afternoon. It appears that the bulk of the stock of this company has been absorbed already in London and New York, and in the former place especially it is exceedingly hard to get, even at high prices. It is not very long ago when cable was neglected and thankful to sell, but the position in London is very much the other way now. The total issue of stock is $7,716,000, but if it continues to be bought in at the present rate it will be out of the speculative range before long.

O'Malley Set at Liberty.

NEW ORLEANS, Oct. 9.—Much surprise was expressed here when the case against Detective O'Malley was not pressed. O'Malley was indicted on the charge of bribing the jury which acquitted the Italians accused of assassinating Chief of Police Hennessy. When the case came up for trial to-day the state was unable to offer admissable evidence and the accused was set at liberty.

War in San Diego.

The castigation which Thomas Gardiner, general manager of the Daily Union, gave G. W. Monteith on Wednesday took place to-day. John B. Berry, collector of the port of San Diego, whom the Union charged with being connected with Monteith's libelous publication, which caused manager Gardiner to thrash Monteith, brought suit against the Union Company for $25,000 damages for alleged libel. Monteith threatens a similar suit.

A Gruesome Tale.

SAN LUIS, Cal., Oct. 9.—A special from LaPanza says that Guilarte, the alleged murderer of Martin Heins, has had his examination and was held over without bail. The evidence went to show that Heins has disappeared and that portions of a human body have been found on John Guilarte's ranche, that the flesh had been salted and the hands thought it had been fed to them. Good order prevails, though the sentiment is unanimous that the prisoner ought to be hanged.

Hanged for Murder.

OMAHA, Oct. 9.—The murder of Allan and Dorothy Jones, committed on a lonely farm in this county in February, 1890, has been explated. The murderer, Ed. Neil, was executed at noon to-day. The scaffold was erected in the court yard of the jail, and the condemned man marched up with a firm tread. At the last moment he confessed he committed the crime unassisted, and asked the forgiveness of all, especially the Jones family.

A Mexican Absconder.

CITY OF MEXICO, Oct. 9.—Anxious creditors, whose claims aggregate over $400,000, would like to know the whereabouts of Salvador Malo, a prominent contractor. It is reported that he has fled to New York.

Dropped Dead.

NEW YORK, Oct. 9.—Howard T. Coffin, treasurer of the Iowa Loan and Trust Co., of Philadelphia, dropped dead in Wall street near Broadway about 11 a.m.

Merit wins, as the marvelous success of Hood's Sarsaparilla shows. It possesses true medicinal merit. Sold by all druggists.

A QUARTER OF A CENTURY AGO

There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

PUBLIC NOTICE.

WHEREAS His Honor the Lieutenant-Governor-in-Council of the Province of British Columbia, has granted me a *Petition of Right* against the Crown, to set aside two Crown Grants, viz.: two Lots, 538 and 91, given to Sir Donald A. Smith and Richard B. Angus, for 6,000 acres of land in the City of Vancouver;

And whereas the case is now pending trial in the Supreme Court of British Columbia, all parties are warned not to purchase any land contained in the above named grants, as they were issued unlawfully, without any Statute, or Act of the legislature, or any consideration in money.

And further, that I am owner of Lot No. 1003, situated on English Bay, and within the above-named grant, *as shown by the District Registrar;* and all parties are warned not to purchase or negotiate for any of the above-named Lot No. 1003.

SAMUEL GREER.

THE GREER ESTATE.

NOTICE.

ALL PERSONS who have purchased lots in the above estate are respectfully requested to forward to box 185, Vancouver P.O., any sum or sums of money they may feel disposed, which amounts will be duly acknowledged and receipts therefor forwarded as credit on back payments, to meet the necessary expenses in three entire new pending, viz.: One criminal and two civil. I have not compromised any who may have purchased property in the estate referred to, with a tyrannical company, well knowing my many friends would stand by me. The darkest hour has arrived. My petition of right will be carried to the foot of the Throne and the are thousand acres, the Canadian Pacific Railway land grant, must fall to the ground. Justice will yet be had.

THE MANCHESTER ELECTION.

Sir James Fergusson, the new Postmaster-General, has been re-elected in the north-east division of Manchester, receiving 4058 votes to 3908 cast for his opponent, Mr. C. P. Scott, editor of the Manchester Guardian. In 1886 the same candidates contested the division. Sir James' vote being 3680 and Mr. Scott's 3353. Thursday's vote, therefore shows a reduction of the majority from 327 to 150. The Liberals, however, are disappointed over the result, as they had hopes of defeating Sir James and striking a hard blow at the Government. Per contra, the Tories were somewhat afraid of defeat, and are now correspondingly jubilant. They point to the increased vote for their candidate in a division which contains many workingmen, from which they argue that the labor vote is not leaving them to any great extent. They further argue that this increase indicates a triumph at the general elections, as a similar gain all over the country would mean the election of a majority of their candidates. The absurdity of this will be seen if the same process of reasoning is applied to the Liberal side of the case, for Mr. Scott's vote increased to a greater extent than did that of Sir James Ferguson. However, it appears reasonable that the Tories should get more comfort out of the election than the Liberals, in view of the respective party forecasts.

CENSUS MATTERS.

The Mainland papers look with jealous eye on the figures given by Victoria's new census, and would like to discredit them if they could. This is very foolish as well as very spiteful. Our contemporaries should rather welcome every attempt to arrive at a true conclusion as to the population of the Province, even if it does show this city in a better light. They should not forget that Victoria's progress means the progress of the whole Province, just as that of one of the Mainland cities would. If either of the latter conceives that its population has been belittled by the Dominion census, it has at hand the same means of correcting the mistake as Victoria had, and we should certainly welcome any evidence that either or both of them has experienced a greater growth than they are credited with. There is a practical as well as a sentimental aspect to the matter, of which the Province should not lose sight. As all know, the Province draws from the Dominion Treasury a subsidy of 80 cents per head of the population, and if a few thousand people have been omitted by the Dominion census British Columbia is cheated out of a proportionate amount of revenue. A difference of 9000 in Victoria's population means a difference of $7200 in subsidy to the whole Province. If other places were treated in like fashion the size of our per capita allowance must be very substantially affected. Recently we had occasion to comment on the fact that the census figures showed a decrease in the rural population of the New Westminster electoral district, whereas there is good reason to believe that there has actually been a considerable increase. It may be that in connection with this district the Province will be inadvertently defrauded of some of its revenue. It has been stated in explanation that the figures were partly estimated, in which case it must appear that a large exodus from some part of the district was allowed for.

EDITORIAL NOTES.

It is evident that the Government will have a bad time with Chapleau. That distinguished statesman, instead of feeling abashed over the past session's disclosures in connection with his department, seems to be carrying his head higher than ever, and nothing less than promotion to the Department of Railways and Canals will suit him. He has also been lecturing the Protestant clergymen who have had the temerity to condemn the scandalous doings at Ottawa. The Premier, as said in our Ottawa dispatch, can neither grant nor deny the Secretary's request for a fulfilment of Sir John Macdonald's promise without getting into trouble, and the public await his decision with much interest.

Sir Michael Hicks-Beach has been chosen as Government leader in the House of Commons, in succession to Mr. W. H. Smith. In the speculation regarding the position Sir Michael's name was not often mentioned, Mr. Goschen and Mr. Balfour being most frequently thought of. Mr. Goschen, it appears, is not popular among the Tories, and probably Mr. Balfour was regarded as too young. Sir Michael is possessed of much amiability and tact, which qualities, we may suppose, were deemed of more importance than ability at the present juncture. During the late session, Sir Michael on more than one occasion, showed himself much in advance of his party on the question of land reform in Ireland, as Sir John Gorst has shown himself on the land question generally. It would appear as if Lord Salisbury's Toryism were losing a little of its stiffness.

Rev. Principal Grant is an admirer of Sir Charles Tupper, but he seems to be unable to uphold Mr. Haggart. In a recent lecture at Kingston he said: Of the cases investigated in whole or in part by the Public Accounts Committee, one stands out in bad prominence. The committee had before it the name of a woman who, as a clerk in the civil service, drew pay for months while absent from her post on the plea of ill-health; and with her name the name of a cabinet minister was freely and unpleasantly mentioned. The enquiry was rigidly limited, and even questions whether the minister had visited her at her residence were not allowed to be put by his party friends. If the woman and the minister were innocent, anything more cruel and unjust to both cannot be conceived. His denial in the House amounts to nothing. Where a woman is concerned it does not amount even to the permissible "not guilty," which every criminal pleads. His own inaction and the action of his friends force us in the meantime to believe him "guilty," and if guilty, what a glimpse is given into the depths of sin where we would expect scrupulous purity. Such a man should no longer insult the moral sense of the community by remaining an adviser to the Queen. If he does not retire it will be ill for the Cabinet, for though the women of Canada have not votes they influence votes, and this is a sin they will neither forget nor forgive.

MUNICIPAL ASSESSMENT.

TO THE EDITOR:—In commenting upon my remarks regarding the city assessment roll, the Colonist considers the council have the power to omit from the roll the property annexed to the city by the extension of the limits.

I think it will be admitted that the powers of a council to tax or exempt are statutory, and cannot otherwise be exercised. I ask the Colonist to point out the statute which confers the power to exempt this land from municipal taxation. If it exists it is very important that it should be known, and its operation fully understood. If the council can legally instruct the assessor to omit this property it is a serious matter when one considers the consequences. Such a course may preclude the owner from voting for a mayor or an alderman next January, and prevents him from voting upon by-laws for contracting debt, etc., until after the voters' list is prepared in December, 1892. His property may therefore be mortgaged (for every by-law for contracting a debt is practically a mortgage), and he has not a voice in the matter, whilst others owning property in that portion of the city which is assessed have the right to vote to encumber his property. It means in brief, that the City Council, acting under no authority but its own volition, can preclude the exercise of rights conferred upon citizens by Act of Parliament.

Thus there is the question of exempting improvements from taxation. I believe the Provincial Assessor values the property annexed at about two million dollars; the City Assessors valuation would be much more judging by other property he has assessed. I observe the Board of Trade places the valuation at seven million dollars. If this is so which I contend the municipal act makes it obligatory upon the assessor to include in the roll was assessed, not only would the rate upon all property in the city be materially changed, but it would enable the council to exercise the power conferred upon them to exempt or greatly reduce the rate upon "improvements." I observe the humorous reference to what is termed my "legal opinion." I am not a member of the long robe and never pretend to give "legal opinions," but as one who takes an interest in public affairs, I believe I have in common with others the right to express myself. I have no object but to save the city from what I conceive to be an error, which may involve the tax payers in costly legal proceedings. I have given my reason for thinking the Government were precluded from collecting a provincial tax on this land, and quoted a section of the statute to support my view.

It may not be remembered that the progenitors of the political party at present in power, introduced dual taxation some years ago. They imposed a tax on real estate in municipalities. I, in conjunction with others, opposed this policy, and upon the defeat of that party the Legislature at the instance of the Government of which I was a member, abolished the dual tax on real estate, in face of a then empty treasury. This was the origin of the section I quoted, although the verbiage rendered unnecessary by the present state of affairs, is omitted. There is a marked distinction in the original and existing section made between the different processes viz., assessing, levying and collecting the tax, the powers of the Government are estopped during either process by the property coming within the limits of a municipality. If you refer to 42 Vic., ch. 36, sec. 40, you will see the original section abolishing taxation for provincial purposes upon real estate in a municipality, and if you will read 51 Vic., ch 111, sec. 35, vol. 1 Consolidated Acts, you will find the section I quoted. The framers of the law understood the operation of the Assessment and Municipal acts, they knew that property might be assessed for Provincial purposes, the tax become due and subsequently be brought under the municipal system of taxation, by the creation of a municipality or the extension of the limits of an existing municipality. The intention was to abolish a system then legally recognized and existing of dual taxation, and it was abolished. Under the provisions of the two statutes property subject to provincial taxation became exempt therefrom, but liable to contribute to the municipal revenue, upon being included within municipal limits.

I quite agree that the corporation have not the power to take off the Provincial tax, nor is it necessary that it should possess that power. I deny, as the Colonist asserts, that I suggested that the city should contest the power of the Government to collect the tax. I said the money could be refunded to the property owners in a legal manner. I hold that the council have not the power to exempt this land from municipal taxation by leaving it off the roll; that the Assessment Act, and the letters patent issued by the Government on 8th January, 1891, put a barrier before the Government from that date from collecting the tax which had been assessed in 1890, and became due on 2nd January, 1891.

I will have the temerity to advance the further opinion: that the vote cast by the owners of property in the annexed limits, on that sole qualification, during this year on by-laws for contracting debts, etc., should not have been received or counted, and that until this property is assessed and the tax paid, they will continue to occupy the anomalous position of owners of property within a city without a voice in the management, unless the legislature come to their relief and confer special rights upon them. Upon that subject much might be said, but I have already trespassed too much upon your space.

Poisoned by Scrofula

Is the sad story of many lives made miserable through no fault of their own. Scrofula is more especially than any other a hereditary disease, and for this simple reason: Arising from impure and insufficient blood, the disease locates itself in the lymphatics, which are composed of white tissues; there is a period of foetal life when the whole body consists of white tissues, and therefore the unborn child is especially susceptible to this dreadful disease. But there is a remedy for scrofula, whether hereditary or acquired. It is Hood's Sarsaparilla, which by its powerful effect on the blood, expels all trace of the disease and gives to the vital fluid, the quality and color of health. If you decide to take Hood's Sarsaparilla do not accept any substitute.

A Fig Propeller.

A new propeller for the steamer Victorian was cast at Seattle yesterday. It is the largest one ever made in Washington, weighing five tons. Its dimensions are 11½ feet in diameter with 11 foot pitch.

For the South

The following passengers have already been booked for the steamer Walla Walla, which sails for San Francisco to-morrow: W. Chandler, H. W. Maynard, W. H. Finalyson, E. D. Twohy and wife, C. Minckler and wife, and J. Gray.

Sealers in Conference.

The Sealers' Association met again this morning in the office of Hall & Goepel to discuss the question that at present interests them. They will have another interview with the commissioners before the latter depart for the purpose of obtaining mutual information.

Trades and Labor Council.

The regular fortnightly meeting of the B. C. Trades and Labor Council was held last evening, when the organization of clerks and salesmen was endorsed. The council denied the statements published that they had upheld the Vancouver sugar refinery monopoly.

Want Winter Clothes.

The police are complaining that their summer clothes are not heavy enough for this weather, especially at night. Their winter suits have been ready for over two weeks and they are rather anxious to get them on. The nights are getting chilly and the men need heavy clothing.

Entertained the Commissioners.

Rear Admiral Hotham last evening entertained the Behring sea commissioners, Sir George Baden Powell and Dr. Dawson, to dinner on board the flagship H.M.S Warspite. The band discoursed a musical programme for the occasion, at which several local gentlemen, besides the official staff were present.

The Spring Ridge Branch.

The contract for the Spring Ridge branch of the street car line was signed this morning. Mr. T. E. Sinclair is the contractor, and will commence the work on Monday morning. The line will run from Pandora, on Douglas street, to the corner of Fernwood road. The curves are on the way from the east, and will be here some time before they are required.

Mainland Passenger Arrangements.

Steamer Yosemite will proceed to the outer wharf this evening on her arrival from the mainland, and will take on board 77 tons of freight for Vancouver. She will then return to her place in the inner harbor and will not leave for the mainland till seven o'clock to-morrow morning. This arrangement is made to enable the Tacoma excursionists to connect to-morrow morning for the mainland instead of having to wait over till Tuesday morning.

Bound for Tacoma.

About 500 persons, among them several of the aldermen, officers of the warships and other prominent persons, left by the steamer Olympian this morning to attend the Tacoma exhibition. A large number of Mainlanders came down last evening and joined the Victorian excursionists. The weather was not the brightest, but the party left with hopes that they would find clearer skies across the border. They will return early to morrow morning.

Was It Incendiarism.

What appears to have been an evident attempt at incendiarism was unearthed in a closet in Spencer's Arcade this morning. Recollections of yesterday's fire were still fresh as the men hunted through the debris. One of them saw smoke issuing from the sides of the closed door. Fortunately the discovery was made in time to prevent another fire. The cause of the fire was found to be from a bottle of coal oil which had been spilled and set alight. Enquiry has been set going with a view to bringing the guilty party to account.

The Injured Schooner.

The American schooner Fanny Dutard cleared to-day for Port Blakely, whither she returns for another cargo of lumber. Her captain has filed with the solicitor of the Upton line securities for the salvage claim made to the amount of $8000, and now there only remains for the case to be settled in the vice-admiralty courts. The Charles E. Falk also cleared to-day with the lumber cargo of the Dutard which had been transferred on board the former vessel. The repairs to the Fanny Dutard were done on the Star ways, and were both creditably and expeditiously executed.

New Salmon Curing Process.

Experiments have been going on quietly in Victoria on a new and improved process of curing and canning salmon which promises to change the old order of things considerably. The new method makes the fish far more palatable, does away with the taste of the can, so often observable, and is a better preserver. Already American and English capitalists have been making enquiries regarding the experiment, and it is likely that the invention will either be purchased or an institution started for the purpose of canning salmon under the new method.

Day of Atonement.

The Hebrews of this city will observe their day of atonement Sunday evening resp. Monday 12th Oct. all day. Services will be conducted by Rabbi S. Philo, assisted by Mr. Bornstein. Services Sunday evening, commencing at 6.30, lecture at 7.30, subject "Know before whom you pray" text out of the Talmud. Monday morning service at 7 o'clock Memorial service at 10 o'clock; lecture at 11, subject "What is the sinner's punishment?" Text psalm 74. Neelah prayer at 5 o'clock p.m., sermon before Neelah at 4:30, subject "A Rabbi's token to his congregation, or the medium for prosperity." Dr. Philo has secured Mr. and Mrs. Payser for the choir, which consists now of the following personalities: Miss L. Philo, soprano; Mrs. Payser, alto; Miss B. Frank, mezzo soprano; Mr. T. Philo, tenor; Mr. Payser, basso and Mr. Aaronson, baritone. Miss Smid is organist.

Abel Beswick's Death.

Abel Beswick, one of the pioneers who came to Victoria from England on the ship Robt. Lowe in 1863, was found dead in his bed this morning. Last night he felt unwell and sent for Mr. Porter of the Gorge road, who had been an intimate friend of his. When Mr. Porter arrived he found the deceased suffering from a pain in his stomach. A doctor was sent for and after Mr. Beswick was made comfortable they left him intending to return in the morning and take him to the hospital. Mr. Porter went back to the deceased's cabin on Pandora street at 6:30 this morning when he found that Beswick had died during the night. The deceased was 52 years of age and was a native of Holden Fold, Lancashire, England, where he leaves two brothers and three sisters. He was a member of the I.O. O.F., under whose auspices the funeral will be held at 2:30 to-morrow afternoon. Ever since his arrival in Victoria deceased had carried on a teaming business, being a very hard working man, by which means he rolled up quite a fortune.

In the Police Court.

The usual batch of drunks opened the proceedings at the city police court this morning, after which His Honor delivered a short but decisive lecture to two small boys who had broken windows in Mr. Hamley's house with catapults. Geo. Mescher, the contractor for the Five sisters block who was charged with obstructing the street with building material was fined $5, and a man named Murray was sent down for one month for having stolen a scarf pin from a Jap. These cases were not of much interest to the spectators who had gathered to hear the charge against a hackman named Mulcahey, (not employed by the Victoria Transfer Company as has been stated), for using threatening language to another hackman. Mr. Walls who appeared for the defence, as usual, made the case interesting but did not flatter those who were present in the court when he stated that the magistrate and himself were the only ones who understood the the case. He also addressed the same statement to Supt. Sheppard. Mulcahey was however bound over to keep the peace; himself in $100 and two securities of $50 each.

MATTERS OF BUSINESS

Discussed at the Quarterly Meeting of the Board of Trade Yesterday.

There was but a very slim attendance at the quarterly meeting of the Board of Trade yesterday, although there were several questions of importance to be considered. President T. B. Hall occupied the chair. The first business to come before the meeting was the letter from the secretary of the Commercial club of Tacoma, which has already been published. The secretary was instructed to acknowledge and accept with thanks the invitation tendered.

The following communication was received from Mr. Thomas R. Smith, H. B. Co. Commissioner:

VICTORIA, Oct. 7, 1891.

F. Elworthy, Esq., Secretary Board of Trade, Victoria, B. C.

SIR:—On June the 7th, a circular letter was received at the office of the C.P.N. Company, as follows:

"I give below for your information and guidance, extract from an act to amend Chapter 77 of the Revised Statutes of the Dominion of Canada, respecting the safety of ships.

"Chapter 77 of the Revised Statutes, 'An Act respecting the safety of ships, and the prevention of accidents on board thereof,' is herewith amended by adding the following section thereto:

"Every person who knowingly sends, or attempts to send by, or carries, or attempts to carry, in any ship registered in Canada and carrying passengers, or in any ship registered elsewhere than in Canada, but carrying passengers between any places in Canada, or from any place in Canada to any place out of Canada, the following dangerous goods, that is to say—gunpowder, except as hereinafter provided, dynamite, nitro-glycerine, or any dangerous compound of which any of these goods is any ingredient, is guilty of misdemeanor, and shall be liable to a fine, not exceeding $200, or to imprisonment for a term not exceeding three months, or to both; and such goods shall be forfeited to the Crown, and dealt with accordingly."

In compliance therewith, that company issued an order, that powder should be received for shipment on any of their steamers carrying passengers. We desire to call your attention to the fact that there are no regular freight steamers plying between Victoria and Interior or Northern points, and inasmuch as passenger steamers are not allowed to carry gunpowder and such explosives, we are unable to ship to our customers at such points as Langley, Fort Simpson and Skeena River. We would, therefore, request that this matter be taken up by the Board of Trade, with a view to having an order issued allowing passenger boats to carry powder under certain restrictions. This is especially important to Victoria wholesale merchants, as, if delays constantly occur in shipping explosives from Victoria to Mainland and Northern points, our customers will be compelled to purchase on the Mainland instead of here. Asking that you will give this matter your early attention,

I have the honor to be, etc.,
For the Hudson's Bay Co.,
(Signed) THOMAS R. SMITH,
Assistant Commissioner,
per R. H. HALL.

Mr. Robert Ward was of the opinion that if a proper representation were made by the Board to the department of Marine and Fisheries to the effect that shipments of explosives by passenger steamers here amount to comparatively a very small item in the freight, and that it would be desirable to relax that restriction the Department would no doubt see it in a proper light. He, Mr. Ward, believed the intention was only to prohibit the carrying, on a large scale, of explosives on passenger steamers between here and the Mainland, whereas the shipments that are made are very small and consist only of a few kegs of sporting powder.

Some discussion ensued as to whether the act included such shipments, and the matter was placed in the hands of the City Council.

The president referred to the inroads which death had made upon the Board since its last meeting in removing Mr. A. A. Green and Mr. Edgar Marvin.

Mr. Ward remarked that Mr. Hall had really anticipated his intentions, because he, Mr. Ward, had already drawn up a resolution in the sense of the president's remarks. From his own experience Mr. Ward knew the late Mr. Green to be a most attentive member of the council. He certainly took the keenest interest in everything which the board undertook, and he was the means of introdcing, at various times, some very important business into the board's discussions, as well as assisting materially in increasing the membership and extending the influence of the board. With regard to Mr. Marvin, the speaker knew him as having been one of the original members of the old British Columbia Chamber of Commerce, started in the sixties; he afterwards came over to this board at the time of its incorporation. Although delicate health prevented his taking an active part in the affairs of the board of late years, he has always been with it in anything adopted by the majority of the board. Mr. Ward moved, "That the board desires to place on record its deep sense of the loss it has sustained by the death of two of its members—Mr. Edgar Marvin, sr., and Mr. Alexander A. Green. The former was one of the first elected members of the British Columbia Chamber of Commerce, and a member of this board since incorporation; Mr. Green having been an original member of the board, and for many years an active and valuable member of its council."

Mr. E. B. Marvin seconded the motion, which was carried unanimously.

Mr. Ward moved, seconded by Mr. Flummerfelt, that the constitution and by-laws, as amended, be taken as read and adopted. Carried.

Mr. C. E. Renouf's motion with reference to an official building of the Board of Trade was passed, and all present subscribed for shares in the undertaking.

The following new members were elected:—A. P. Luxton, R. B. McMicking, E. E. Wootton, J. L. Penney, Thos. Tugwell, F. G. Worlock and H. D. Helmcken.

Mr. A. C. Flummerfelt drew attention to the want in this city of a chemical engine for extinguishing small fires. There was an illustration yesterday of the loss sustained by water where a chemical engine would have been very effectual. He moved to the effect that the secretary communicate with the City Council that the board respectfully request steps to be taken to procure a chemical engine for use at small fires.

Mr. Renouf explained that the fire wardens are now considering that matter, but had not yet reported.

Mr. Ward, in this connection, spoke of the want of a salvage corps, an institution which is instrumental in saving a great deal of property at fires in other cities.

The board rose shortly before five o'clock.

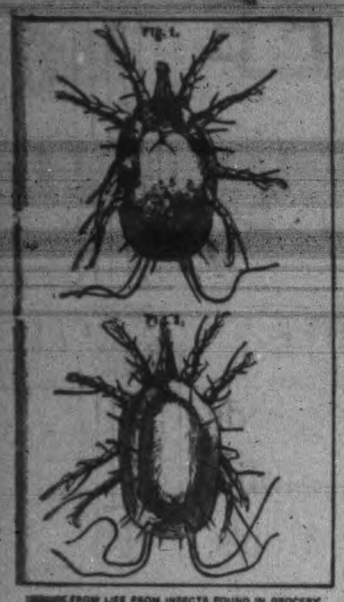
CHINESE - SUGARS; - WHAT - IT - IS - WE - MAY - BE - EATING!



MAGNIFIED FROM LIFE INSECTS FOUND IN GROCERY

In view of the introduction to the Province recently of considerable quantities of Chinese Sugars, it may be as well that the Public should be informed, on the very highest possible authority, of the danger that may be attendant upon their use.

Professor Cameron, Public Analyst, Dublin, a gentleman who has made it his special business to examine all kinds of Foreign Sugars, Refined and other, says that certain kinds of them should never be used. He states that they contain great numbers of DISGUSTING INSECTS, which produce a DISGUSTING DISEASE. Their shape is very accurately shown in the accompanying cut, which is magnified two hundred diameters. Figure 1 is the under side, and Figure 2 the upper. The Professor's description is as follows:—

"This insect ('the Acarus Sacchari') is a formidably organized, exceedingly lively, and decidedly ugly little animal. From its oval-shaped body stretches forth a proboscis terminating in a kind of scissors, with which it seizes its food. Its organs of locomotion consist of eight legs, each jointed and furnished at its extremity with a hook. In the Sugar its movements from one place to another are necessarily very slow, but when placed on a perfectly clean and dry surface, it moves along with great rapidity." He adds that the number of "Acari' found in Unrefined Sugar is "sometimes exceedingly great, and in no instance is the article quite free from either the insects or their eggs." He further says:—"The Acari Sacchari" do not occur in Refined Sugar of any quality, because they cannot pass through the charcoal filters of the Refinery, and because Refined Sugar does not contain any nitrogenous substance upon which they can feed."

COOLIE - MADE - AND - ALL - UNREFINED - SUGARS - SHOULD - NEVER - BE - USED!

Besides its being impossible for Canadian Labor to compete with Coolie Labor, rice fed and under paid, it is well known that Eastern Countries have always been the breeding ground for leprosy and all other loathsome and horrible human diseases, and hand labor there is so cheap that there is no inducement to employ machinery. Home Refined Sugar, on the contrary, is never touched by the human hand from the moment it reaches the refiner until it leaves him a perfectly safe and purified article.

Use, therefore, Only Home Refined Sugars; They Are Absolutely Unadulterated, Pure and Cheap.

Failures in the States.

ROCHESTER, N.Y., Oct. 9.—A. S. Man & Co., one of the oldest dry goods firms in the city, made a general assignment this morning. The failure is a complete surprise. The firm's money is tied up in western land and it is unable to tide over the emergency. The liabilities are over $600,000; assets about $72,000. H B. Claflin & Co., of New York city, are the largest creditors. Their claim is $50,000. Claflin & Co. are secured to the extent of $20,000 and the assignment is supposed to be made in their interests.

PITTSBURG, Pa., Oct. 9.—The Oliver & Roberts Wire Co. has failed and asked for an extension. Other interests in which Mr. Oliver is interested are not affected. Geo. T. Oliver, president of the company, was seen at his office and made the following statement: "It is true that Oliver & Roberts were compelled to suspend payment. The suspension is caused primarily by the embarrassment of Nymick & Co., of this city. Alexander Nymick head of that firm, is an endorser of our paper for a considerable amount. This paper is held by various Pittsburg banks, and most of it matures during this and next month. Under the circumstances the holders don't feel justified in renewing it without additional security, which we are unable to give. The only course open for us is therefore to call our creditors together, lay before them a statement of our affairs and ask them for time. Our assets largely exceed our liabilities, and we expect to and will pay every dollar we owe, with six per cent interest. The Oliver Iron and Steel Co., of which Mr. Henry Oliver is president, is not involved in our embarrassment, and do not expect to ask for any extension.

The Searles Will Case.

SALEM, Mass., Oct. 9.—By agreement of counsel, it was announced in court this afternoon that the further hearing in the Searles will case has been postponed to October 26th. This postponement, it is thought, is a preliminary movement toward a settlement of the entire matter out of court, and the object is thought to be to gain time to consider negotiations which are said to be pending in the case.

Report From the Bear.

WASHINGTON, Oct. 9.—In a report to the Treasury Department on the cruise of the revenue steamer Bear in the Arctic Ocean, dated Onalaska, Sept. 11th, Captain M. A. Healy, commanding the vessel, says that he found many cases of destitution among deserters from the whaling fleet in the vicinity of Port Hope. On account of the solidity of the ice it was impossible to reach Point Barrow relief station to deliver coal and provisions from San Francisco, but communication with the station was established, and the superintendent sent word that the coal and provisions on hand were sufficient to carry them through the winter unless some disaster occurred. The schooner Silver Wave, of San Francisco, was wrecked on Point Franklin in Oct. 1890, and her crew were succored at the station until spring. The captain says whalebone resembles specie in value, and he recommends government protection to the industry of securing it. The reports that the crews of three vessels were killed at Herschel Island Captain Healy believes to be untrue. Many natives were found in destitution, caused largely, Captain Healy believes, by the refusal of the Government to allow them to hunt with firearms, their spears being of little use since the wild animals have become so shy. Several school houses were established in places visited by the Bear. Captain Healy says that the introduction of reindeer in the Arctic country will do much to improve the condition of the people, the deer being available for food, clothing and traffic.

A Pelican Used in Smuggling.

NEW YORK, Oct. 9.—An afternoon paper says the police are looking for a Mrs. Yancy, who is accused by Chicago diamond importers of absconding with $30,000 worth of diamonds which she smuggled into the country for them. It is said that in her career as smuggler she has defrauded the Government of duties on one million dollars' worth of diamonds. The diamonds are said to have been concealed in the mouth or pouch of a pelican which the woman always had with her, ostensibly as a pet.

PUPILS IN OUR PUBLIC SCHOOLS.

Are They All Fairly Treated?

A NEGLECTED CLASS!

Are Our School Trustees Aware of This?

It is not our intention at this time to unfairly condemn our public school system, nor is it our wish to harshly criticise the conduct or ability of our public school teachers, who for hours each day have the control of our children, but simply to show that at present there are thousands of school children in Canada who are almost neglected, and who do not receive the attention they deserve. This is owing to a want of tact on the part of the teacher, and a lack of thoroughly understanding human nature, qualities which every successful teacher should possess.

We find in every school a class of scholars known as "dullards," whose perceptions are deficient in rapidity, and whose mental powers are sluggish. Such pupils need especially the spur of encouragement, and should never be subjected to blame or derision on account of their slowness. Many teachers often greatly err in dealing with this class of pupils, applying to them such names as blockhead, dolt, numbskull and dunce. They are often neglected by the teacher, who naturally prefers to give attention to bright, precocious pupils who need but little instruction. Teachers and parents should remember that there are good reasons for the existence of this class of scholars. Many children inherit the deficiencies which constitute a "dullard"; others owing to ailments, such as weak, nervous organisms and puny frames, are unable to cope with children of robust build and strong nerve organization.

It is the imperative duty of the teacher to whose care has been committed the educational training of such children, to watch with solicitous care the progress and condition of these pupils. In the majority of cases it will be advisable in regard to the pupil, personally, and advise seasons of rest and recuperation.

Young children should at the same time receive more care and attention from their parents; that will conduce to their health and materially assist the teacher.

Parents should carefully attend to all the symptoms of nervousness exhibited by their children. Those twitchings and ugly writhing propensities should receive immediate attention. If your children are irritable, fretful and listless they are unhealthy. If they have headache, dizziness, chilliness, palpitation of the heart and general restlessness, they are in a fair way to develop St. Vitus' Dance. To remove these troubles, to strengthen your children's nerves, to build up the flesh, to make muscle, and give a clear brain, you must use that unfailing remedy Paine's Celery Compound. This course of treatment if faithfully pursued will certainly take your children out of the "dullard" class, and give to them a healthy brain action to actively pursue their studies with safety and pleasure.

Teachers, you have also a great responsibility in this matter. You can, in your own way, urge the use of Paine's Celery Compound which has done so much in Canada for members of your profession. Do not hold back the truth from those who need it.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BROOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PHEBE MOSHER, 90 Brooks Street, East Boston, Mass.

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL

(Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL

(Steam Fuel).

THE NEW WELLINGTON COAL

House and Steam Coal are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power unequalled by any other bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

A BY-LAW

To authorize certain officials to borrow money to meet current expenditure.

WHEREAS by Sub-section 133 of Section 96 of the "Municipal Act, 1891," it is enacted that the municipal council of any city in the Province of British Columbia be authorized under the conditions there expressed to borrow from any person such sum of money and bearing such rate of interest as may be requisite to meet the current legal expenditure of the corporation which becomes payable out of the annual revenue before the revenue for the year becomes payable by the taxpayers;

AND WHEREAS it is found necessary in order to meet the current legal expenditure of the Corporation of the City of Victoria to borrow the sums of money hereinafter mentioned in accordance with said Sub-section 133 of Section 96 of said "Municipal Act, 1891."

THEREFORE BE IT ENACTED by the Mayor and Aldermen of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the Corporation of the City of Victoria to borrow from the Bank of British North America such sums of money as may be requisite to meet the current legal expenditure of the said Corporation which becomes payable out of the municipal revenue, and the amounts so borrowed shall be repayable and repaid on or before the 31st day of December, A.D. 1891, out of the municipal revenue for the said year.

2. The amounts so borrowed shall not exceed in the whole the sum of Two Hundred and Fifty Thousand Dollars ($250,000), and the rate of interest payable thereon shall not exceed the rate of six per centum per annum.

3. The obligation to be given to the said Bank shall be in writing signed by the Mayor and the Clerk of the Municipal Council of the said Corporation and shall be in the form of a promissory note and shall bear the corporate seal of the said Corporation.

4. All agreements for advance heretofore made from said Bank are hereby confirmed.

5. The "Bank Credit Amendment By-Law, 1891," is hereby repealed.

6. This By-Law may be cited as the "Bank Credit Amendment By-Law, 1891, No. 2."

Passed the Municipal Council the 23rd day of September, A.D., 1891.

Reconsidered and finally passed the Council this 5th day of October, A.D., 1891.

[L.S.] JOHN GRANT, Mayor.

A BY-LAW

For the levying of Rates upon Land and the Improvements thereon.

BE IT ENACTED by the Council of the Corporation of the City of Victoria as follows:

1. This By-Law may be cited as "The Land and Improvement Rate By-Law."

2. From and after the passing of this By-Law there shall be raised levied and collected upon all the land and improvements upon the assessment roll of the Corporation of the City of Victoria the following rates on the assessed value thereof as appears by the said roll:

Upon all land an equal rate of one per cent. and one-half of one per cent.

Upon all improvements upon land an equal rate of three quarters of one per cent.

3. The aforesaid rates and taxes shall be due and payable by the person or persons liable therefor to the Collector of the said Corporation at his office at the City Hall in the City of Victoria on or before the 1st day of December, 1891.

Passed the Municipal Council the 23rd day of September, A.D. 1891.

Re-considered and finally passed the Council the 5th day of October, A.D., 1891.

SPORTING INTELLIGENCE.

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

BASEBALL.

LOUISVILLE BREAKING UP.

LOUISVILLE, Ky., Oct. 9.—The chances are that Louisville will lose its baseball club. The treasury is empty and the need of money is most pressing to meet two liabilities. One is a $5,500 mortgage, which has been hanging over the club for three years. The other is $1700 of salaries due the players. If the members of the team are not paid Saturday, the ten days will be up, and they will be released. The Mechanic Trust Co., which holds the mortgage, has attached the club receipts to the amount of $1100, and has offered to cancel the mortgage if $1000 more be added to that sum. This the directors have refused to do, and at a meeting Wednesday night they, in face of these two difficulties, decided to throw up the sponge.

THE TURF.

ALLERTON AND NELSON.

GRAND RAPIDS, Mich., Oct. 10.—The race between the trotting stallions, Allerton and Nelson, for a purse of $40,000 and the stallion championship of the country, was won here on Thursday by Allerton. Nelson took the first heat in 2:13, and Allerton the next three in 2:13, 2:15, and 2:16¼. C. H. Nelson is not entirely satisfied with the result of the race, and attributes the defeat of his horse to lameness, brought on last week at Cambridge city, which interfered with his training. He left last night for Cambridge, and before leaving expressed confidence in Nelson's speed, and declared that he had $10,000 that said that Nelson could beat Allerton or any other stallion in the world in four weeks, on the track in the city or any other place. He would back Nelson with his last dollar, if in perfect condition, against Allerton. C. W. Williams smiled when Nelson's remarks were repeated to him, and said that Allerton was not pushed at all on Thursday, but was jogging along at an easy and ordinary training pace, which he could keep up indefinitely.

THE RING.

HALL AND KENNY.

MILWAUKEE, Oct. 10.—The People's Theatre was crowded to the doors last night by the announcement that Jim Hall, the Australian pugilist, would attempt to stop Ed. Kenny, a local pugilist, in four rounds. William Slavin, also of Australia, a brother of Frank Slavin, officiated as referee. Parson Davies was master of ceremonies. Hall and Kenny stripped almost of a size. In the first three rounds Kenny had his own way with Hall. Towards the close of the third round Hall landed twice on Kenny's jaw and sent him to the floor, but he was on his feet again at the call of time. In the fourth round Kenny went down three times, but each time saved himself from being knocked out. He was on his feet when Inspector Rimer stepped into the ring and stopped the fight.

WHARF AND WAVE.

Jottings of Interest to Marine Men Concisely Compiled.

Steamer Maude arrived down this morning with two car-loads of grain from Sicamous, for the Victoria flour mills and 80 bales of hay.

The special bulletin just issued from the branch hydrographic office at San Francisco calls attention to the fact that the lines of equal magnetic variation laid down on charts of the Pacific Ocean are wrong and that the existing data are insufficient to assign the correct direction of the magnetic meridian; that blanks have been prepared and will be forwarded from the office on request of mariners for the purpose of noting observations, with a view to furnishing the necessary data. This is of special interest to coast marine and they will no doubt be willing to make the desired report.

NANAIMO NEWS.

Accidents in the Mines—Sons of St. George Have a Festival.

NANAIMO, Oct. 9.—The Sons of St. George gave a grand banquet and concert in the Foresters' Hall last evening to a large number of their friends. The rooms had been most handsomely decorated for the occasion, and a glance into the banquet hall showed a grand display of viands of various description, which would not fail to tempt the most delicate palate. The concert was opened by the singing of a hymn, and then a fine programme was rendered. Those who took part were: Miss Rumings H. Alsopp, Brother Gregory, Mr. Gowland, Miss Harwood, H. C. Field, J. Brown, W. C. Field, M. White, H. Johnston, Miss Morgan, W. Alsopp, B. Potts, J. Black, Bro. King, Wm. Eriere, Brother Kenyon. The hit of the evening was made by J. Brown, who was encored no less than three times, while one or two others were also recalled. The affair was most highly enjoyed, and passed off very successfully.

ACCIDENTS IN THE MINES.

James Spooner, a miner, while working in No. 3 shaft on Wednesday was seriously hurt by a fall of rock. Andrew Ehro, on the same day, was injured by a similar accident at the Northfield mine. Benjamin Richardson was seriously crushed at Southfield yesterday by the up-going trip squeezing him against the wall, and it was feared several of his ribs are broken. He was conveyed to the hospital, where his injuries are being attended to.

LITTLE HAPPENINGS.

At the regular meeting of the hospital board on Tuesday night it is decided to light up that institution with the electric light.

S. Hampson & Co. will shortly open the store now occupied by J. Lewis as a first-class dry goods store.

Mr. C. Charlton, who was injured a few days ago by falling from a ladder in St. Paul's Institute, is progressing favorably.

The building boom here is causing lots of work for the unemployed and everything has a bright aspect.

The Swift Toboggan

The Chinaman who described his trip down a toboggan slide as "Swish, walkee backee half-a-mile," was no. At the opening of the Mount Tolmie toboggan slide this afternoon. But there was quite a number of more distinguished people present at the ceremony which was conducted by Mr. Thomas Norquay. The swift toboggan sped its way with several living freights, and as the sport progressed the excitement and pleasure was intensified. The slide is a marvel of swiftness for a summer insutution. It is about 500 feet in length, starting from a tower at an elevation of nearly seventy feet, and is as smooth as glass. This institution promises to be a great attraction in the coming summer, and if this should be a heavy winter season, there is every probability that a real ice toboggan slide can be made. From the top of the tower a superb view of the surrounding country is obtainable.

Aunty's Advice

"My brother had severe stomach complaint about a year ago and no remedies seemed to relieve him. At last my aunt advised us to try Fowler's Extract of Wild Strawberry, and before he had taken one bottle he was entirely cured."—Adelaide Crittenden, Baldwin, Ont.
